

## SSO dentists for the best dental care – in Basel-Stadt and Baselland

### Transparent treatment

Patients who wish to protect themselves from nasty surprises in their dental treatment rely on dentists who belong to the SSO. This professional association, to which the majority of dental professionals practising in Switzerland belong, guarantees transparency during all stages of treatment.

### Committed to our patients

From the first consultation through to the end of a course of treatment, the entire process is clear, transparent and understandable for the patient, even in the case of complicated oral treatment.

Postfach  
4010 Basel  
Schweiz  
Tel. 061 227 50 88  
E-Mail [sekretariat@sso-baselland.ch](mailto:sekretariat@sso-baselland.ch)

## SSO dentists for the best dental care

Dentists who are members of the SSO stand out due to the significant qualifications of their professional association. An SSO member must therefore meet rigorous quality standards, and this is also regularly verified.

### Highest quality standards

Besides encouraging its members to undertake continuing professional development, the SSO also promotes oral health generally and ensures people have access to the best possible dental care. For you, we keep our knowledge and skills up to date. The latest quality standards are important to us.

## Professional best practice guidelines for optimal oral hygiene

The oral hygiene of their patients is the top focus of SSO members. They therefore voluntarily observe certain professional best practice guidelines.

### We take responsibility

- We devote over 80 hours a year to CPD in order to keep our knowledge and skills up to date.
- SSO members are personally responsible to their patients. Every treatment will be tailored to their individual needs.
- They will clearly explain the various treatment options and stages of treatment to all patients and inform them of the associated costs. Patients will receive a clear itemized invoice.

We are available for your patients day and night, 365 days a year,  
and in emergencies – just give us a call on **061 261 15 15**
